- Copyright Protection
- Cryptographic Protocols
- Digital Signature
- Efficient Implementation
- Hash Function
- Software Security
- Information Hiding
- Key Management
- Privacy Enhancement
- Distributed Systems Security
- Smart Device Security

INSTRUCTIONS for AUTHORS

Submissions must not substantially duplicate work that any of the authors have published elsewhere or submitted in parallel to any other conference or workshop that has proceedings. The paper should start with a title, an abstract and keywords, but must be anonymous. The length of the submission should not exceed 20 pages in Springer's LNCS format, excluding the bibliography and clearly marked appendices. Since committee members are not required to read the appendices, the paper should be intelligible without them. All papers must be in PDF format. It is strongly recommended that submissions be processed using LaTeX2e according to the instruction at <http://www.springer.de/comp/lncs/authors.html>. Authors of accepted papers must guarantee that their paper will be presented at the conference.

CONFERENCE PROCEEDINGS

The proceedings will be published by Springer-Verlag in the Lecture Notes in Computer Science.
